The problem

The hidden costs of bad resource management are a real problem, and they're costing your business more than you think.

01.

You keep wasting time on manual processes and messy spreadsheets

02.

You can't see where time or **money actually goes**

03.

Inaccurate billing costs you money

04.

You are **overpaying for complex solutions** that don't fit

clockify is the solution

clockify

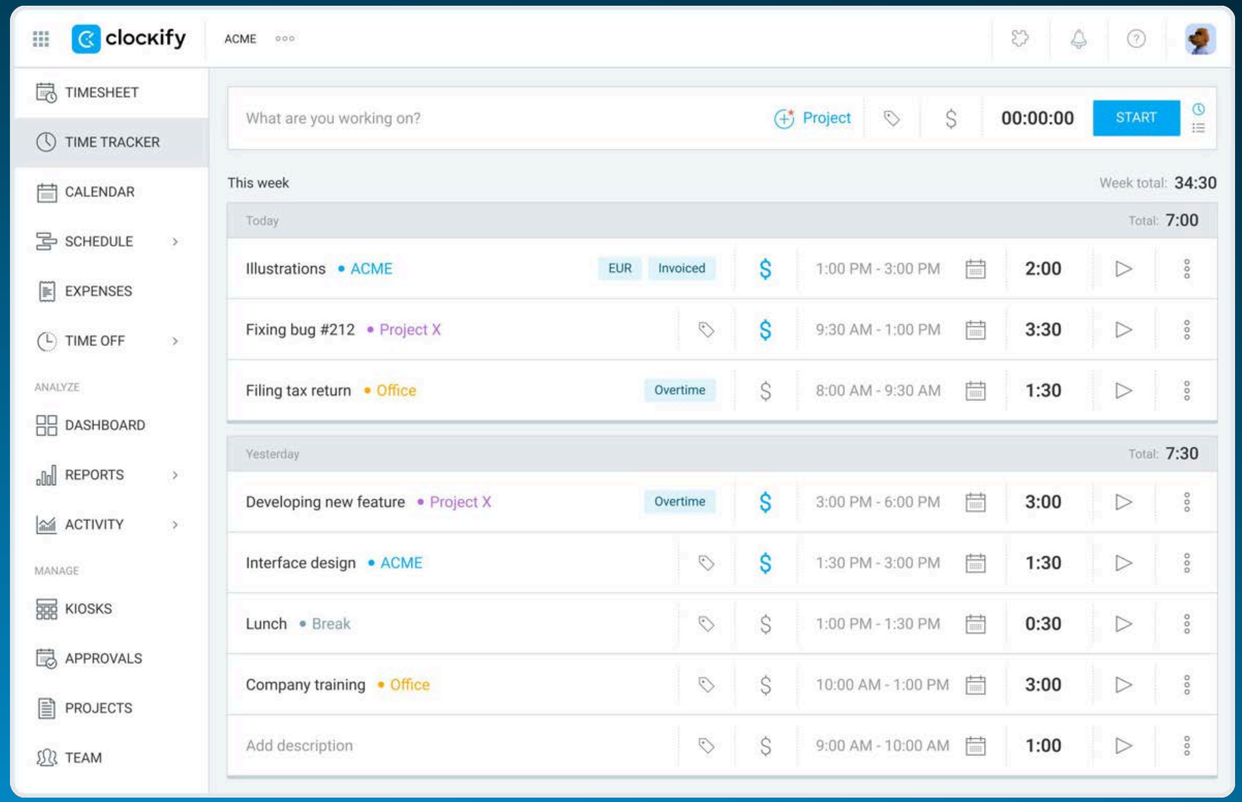
Clockify is a resource tracking platform that allows you to see where your company spends time and money so that you can improve productivity.

Automated tracking for greater productivity

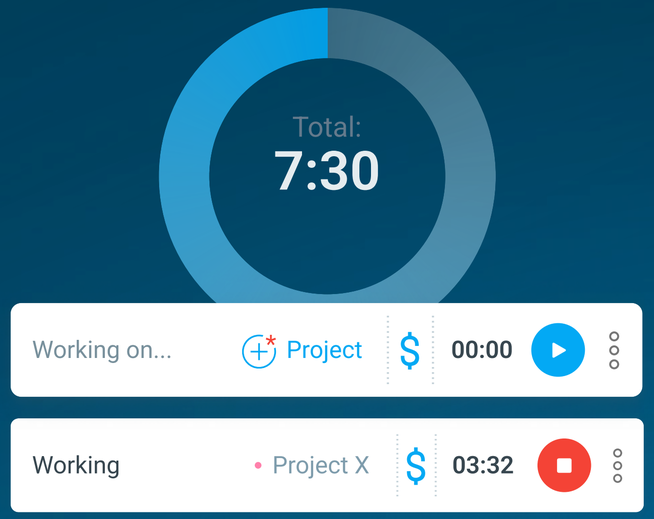
Smarter insights for better resource management and allocation

Higher revenue thanks to **accurate time tracking** and estimates

Powerful and **affordable tool** that's built to scale with your budget

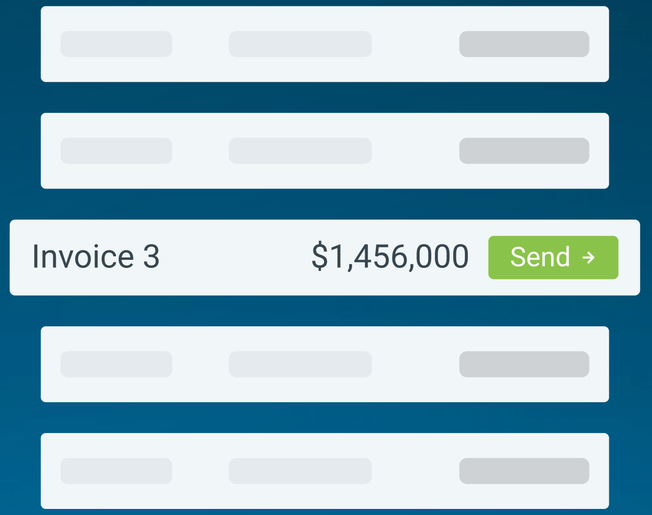


clockify has great features



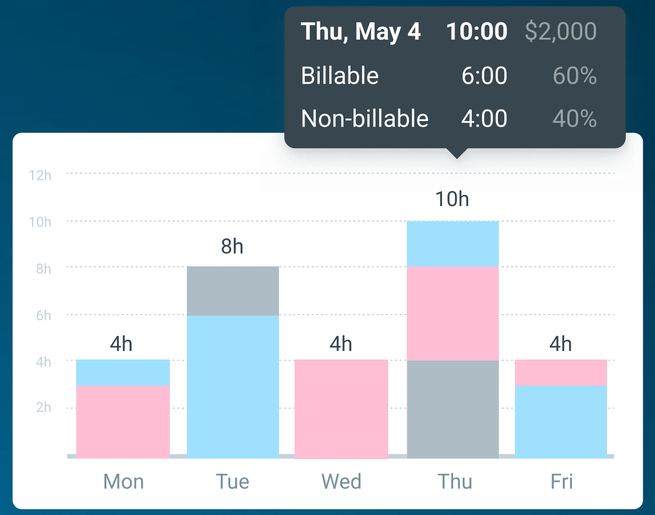
Timekeeping

Track your hours with a simple timer or add time manually — whatever works for you.



Invoicing

Turn your tracked time and expenses into professional invoices and get paid faster.



Reporting

See where your time and resources go with visual reports that actually make sense.

Time tracking

Project X	8h	-	-	8h
Project Y	-	4h	4h	8h
Project	-	-	-	0

Timesheets

Log weekly activities in less than a minute.

Reminders

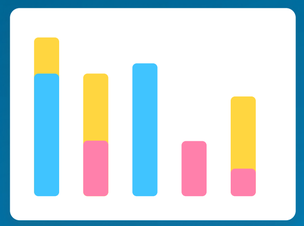
Stay on top of tracking targets and timesheet submission.

If developers tracked Less than 7.5 hours per Day, send Them a reminder

You haven't tracked enough time

Tracked: 0h
Target: 7.5h

Coding	In Progress	
Meeting	2 hours ago	
Break	a day ago	



Reports

Break down time and costs, and export data.

Approvals

Submit and review timesheets, expenses, and time off requests.

Customers stick with Clockify

It's simple to start with, yet powerful enough to scale with their business.

XayLi Barcley

CEO of the **Start Shoot Grow Video Academy**

“I wanted to pre-plan my day, so I started using a tool. I can’t remember what it was at the time right now. But obviously, there was something about it that I didn’t like — so I searched and I found Clockify. And what I loved was just how easy the interface is.”

Taz Zammit

Content creator

“Since we started using it, I’m way more productive. We were able to achieve all of our financial goals last year. I think a big part of that is just being able to focus. You can implement [time-tracking] for different things, but for a work sense, it’s just so beneficial.”

Kamil Osiecki

COO at **ideamotive**

“When a customer needs instant help, we have a couple of hours to react. This is very immersive, addictive, and difficult to manage on time because of work-life balance. But, there are tools that help you out — for instance, Clockify. This is very important for us and it’s the essence of our business.”

clockify costs less
