

Pumble

Business Communication
and Collaboration App

pumble.com

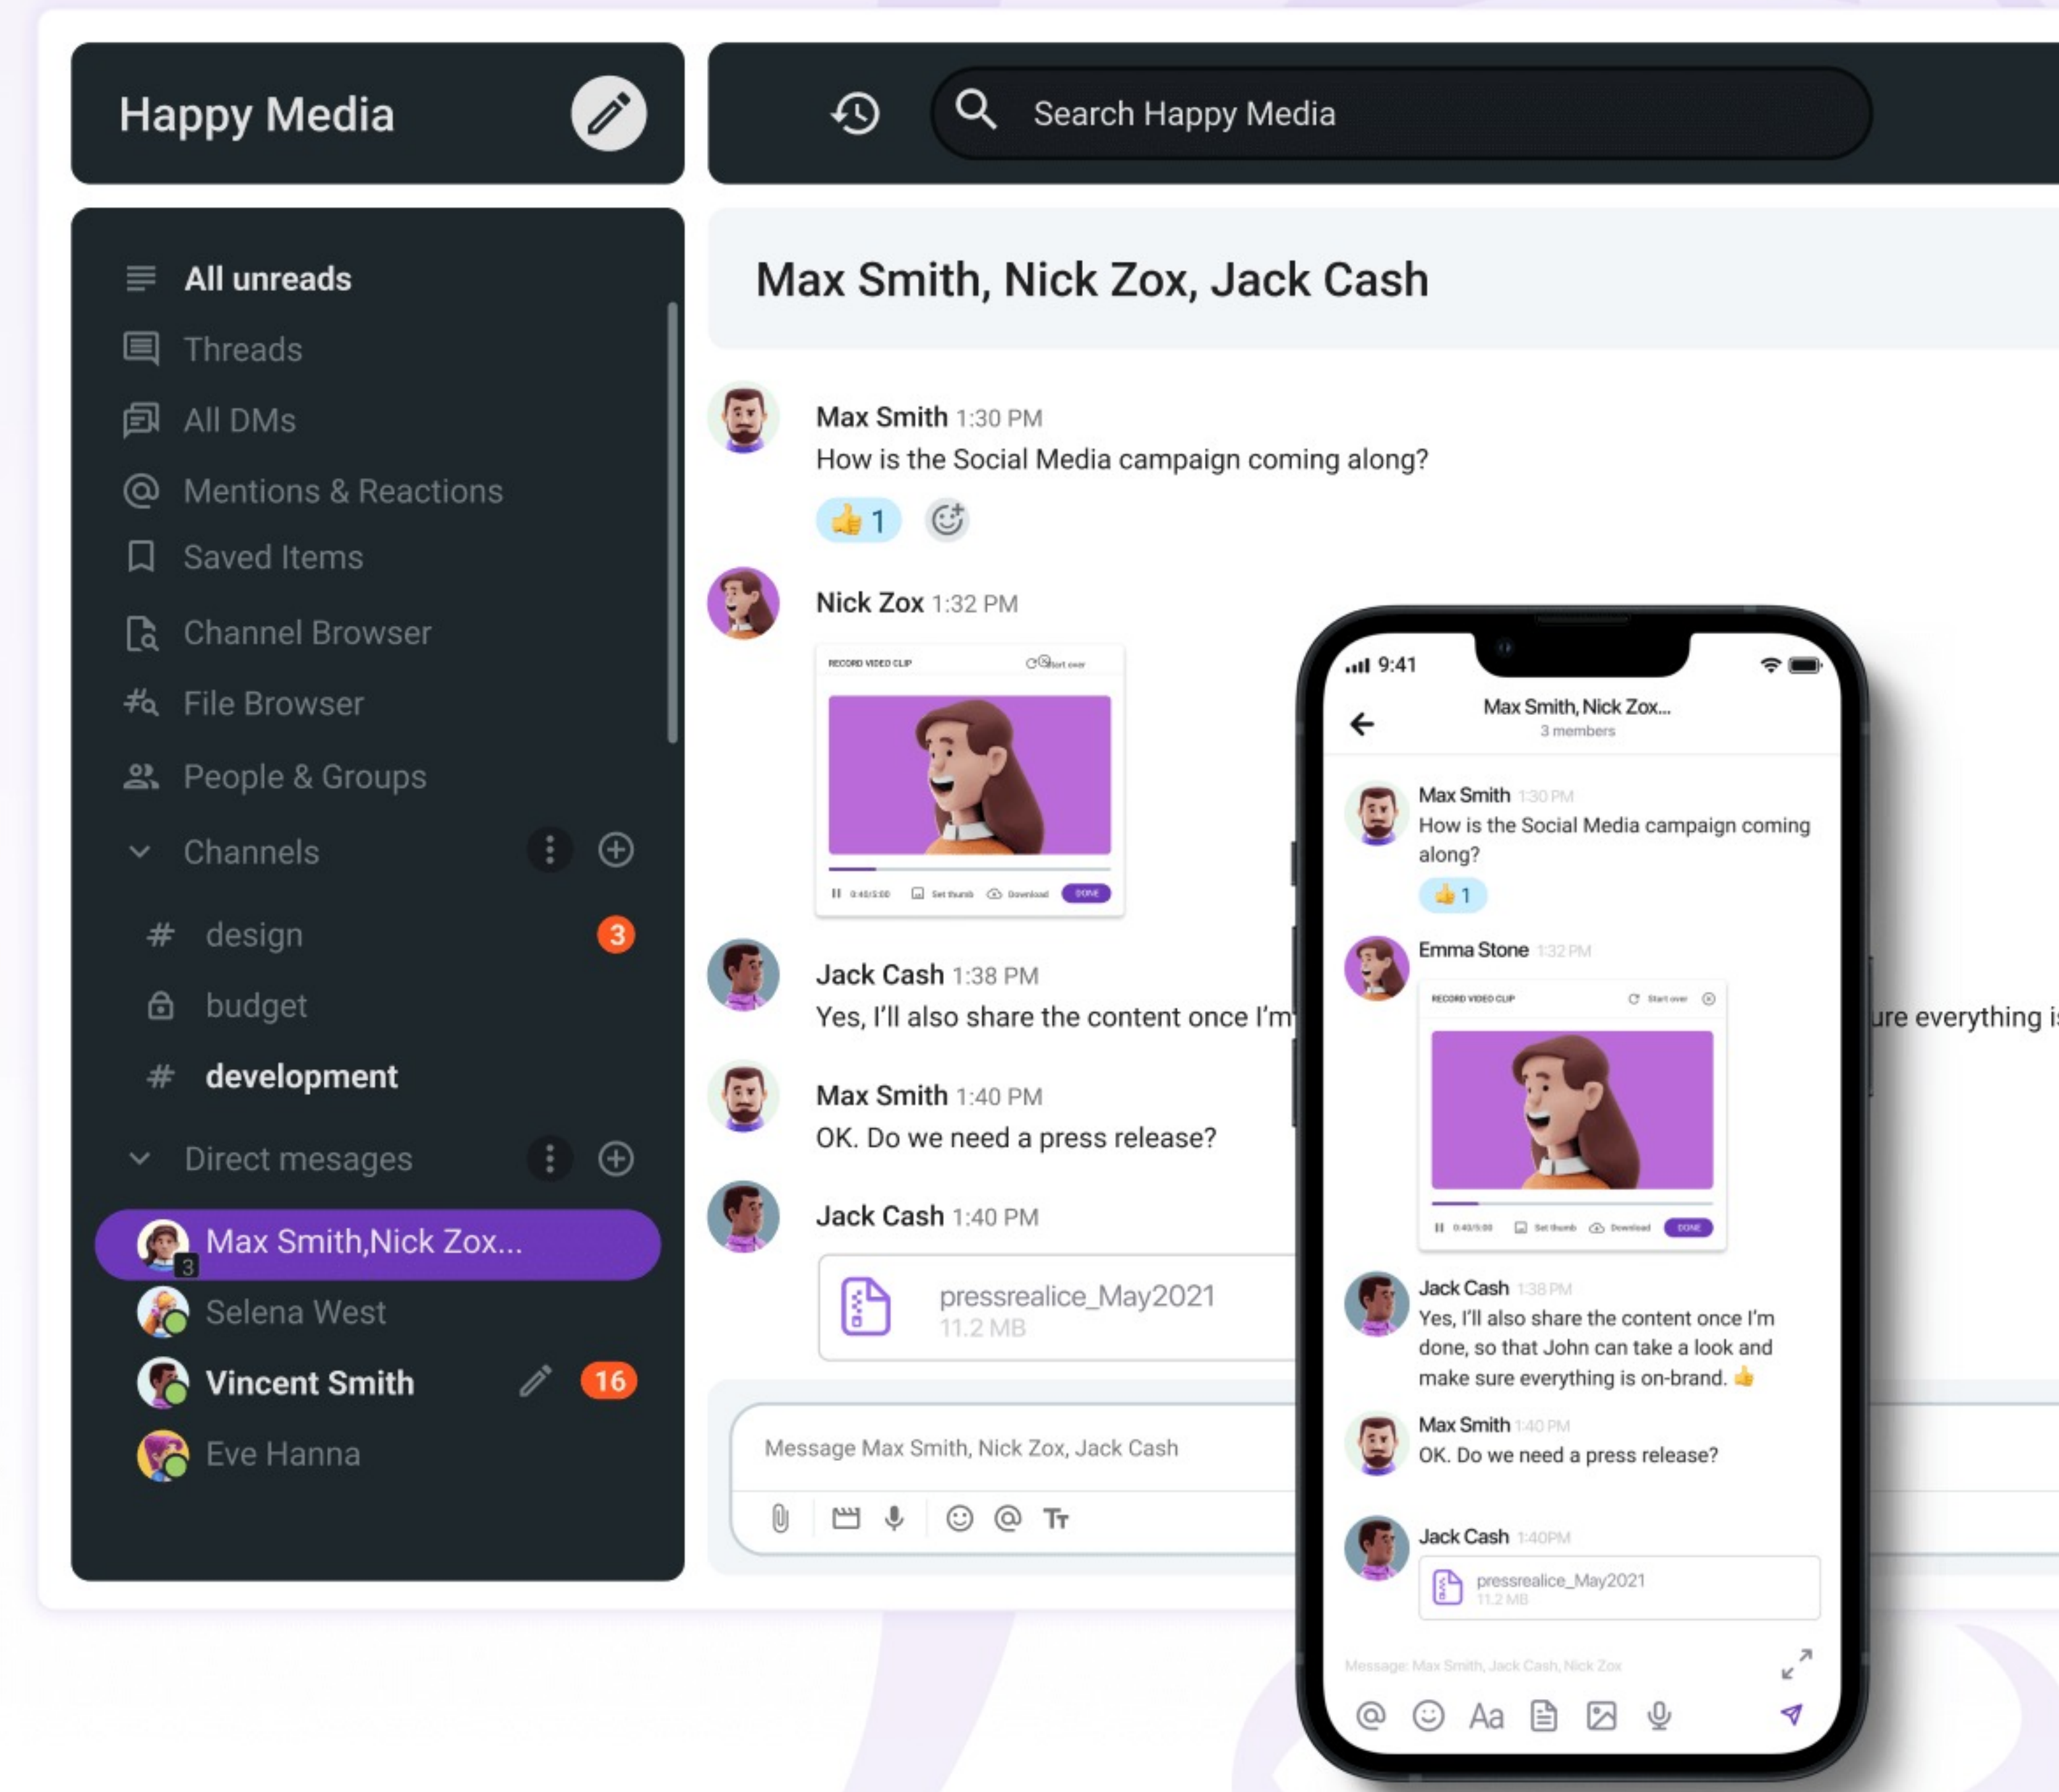

from: **cake.com**

What is Pumble?

Pumble is a business communication and collaboration app made for all teams and industries.

- ✓ Employees use it to send messages, share files and information between each others.
- ✓ Managers use it to track progress of the tasks, and to share important announcements.
- ✓ Companies use it to improve teams communication and collaboration.

Why Pumble?

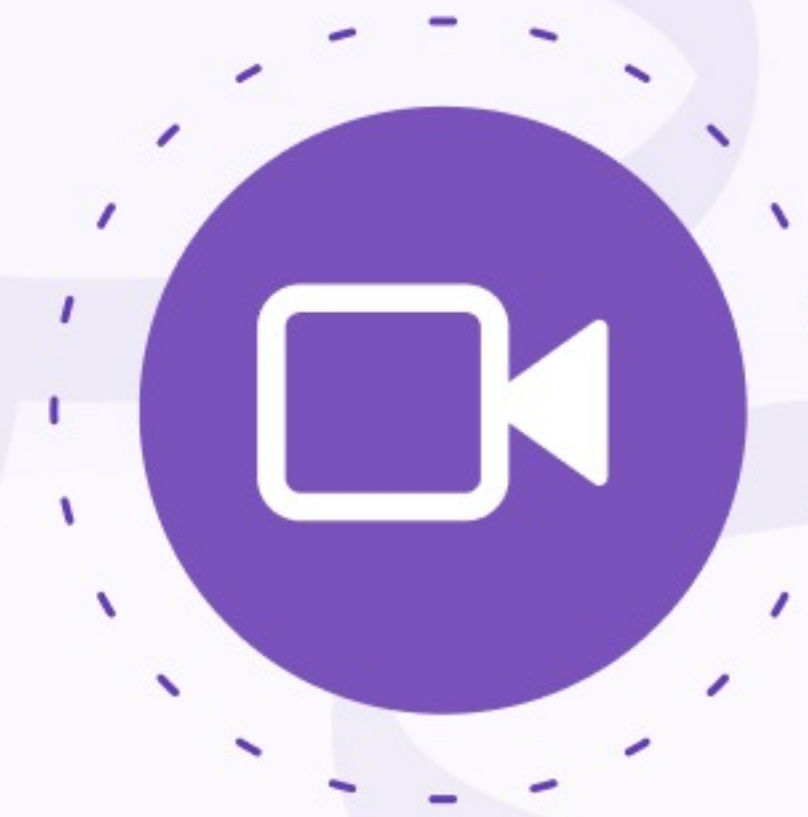

Make your team communication and collaboration more efficient.

Send messages to teammates.

Share and find sent files.

Organize video and voice meetings.

Customers

“At the moment, we are about 90% in-office and 10% remote because we also have a senior citizen as well as freelancers working with us. We don’t insist on them coming to the office. They can work remotely, and they can log in via Pumble. That way, we can stay in touch and keep communicating with each other.”

Pooja Nataraj
Founder of PNJXN

“Pumble makes it easier and faster to communicate with team members and clients — plain and simple. We can organize conversations into channels and threads, so we never lose track of a task, whether it’s something we’ve assigned or need another person to do for us.”

Kayla Klein
CEO at Kreativ Alchemy

**HOW

With Pumble, make your work

Simpler

In Pumble, all your files, information, and people live in one digital space. That means less context switching, fewer distractions, and greater focus.

More pleasant

Work conversations don't have to be stuffy. In Pumble, you can bring your full personality into your messages, making collaboration feel warmer and more human.

PUMBLE FEATURES

Channels

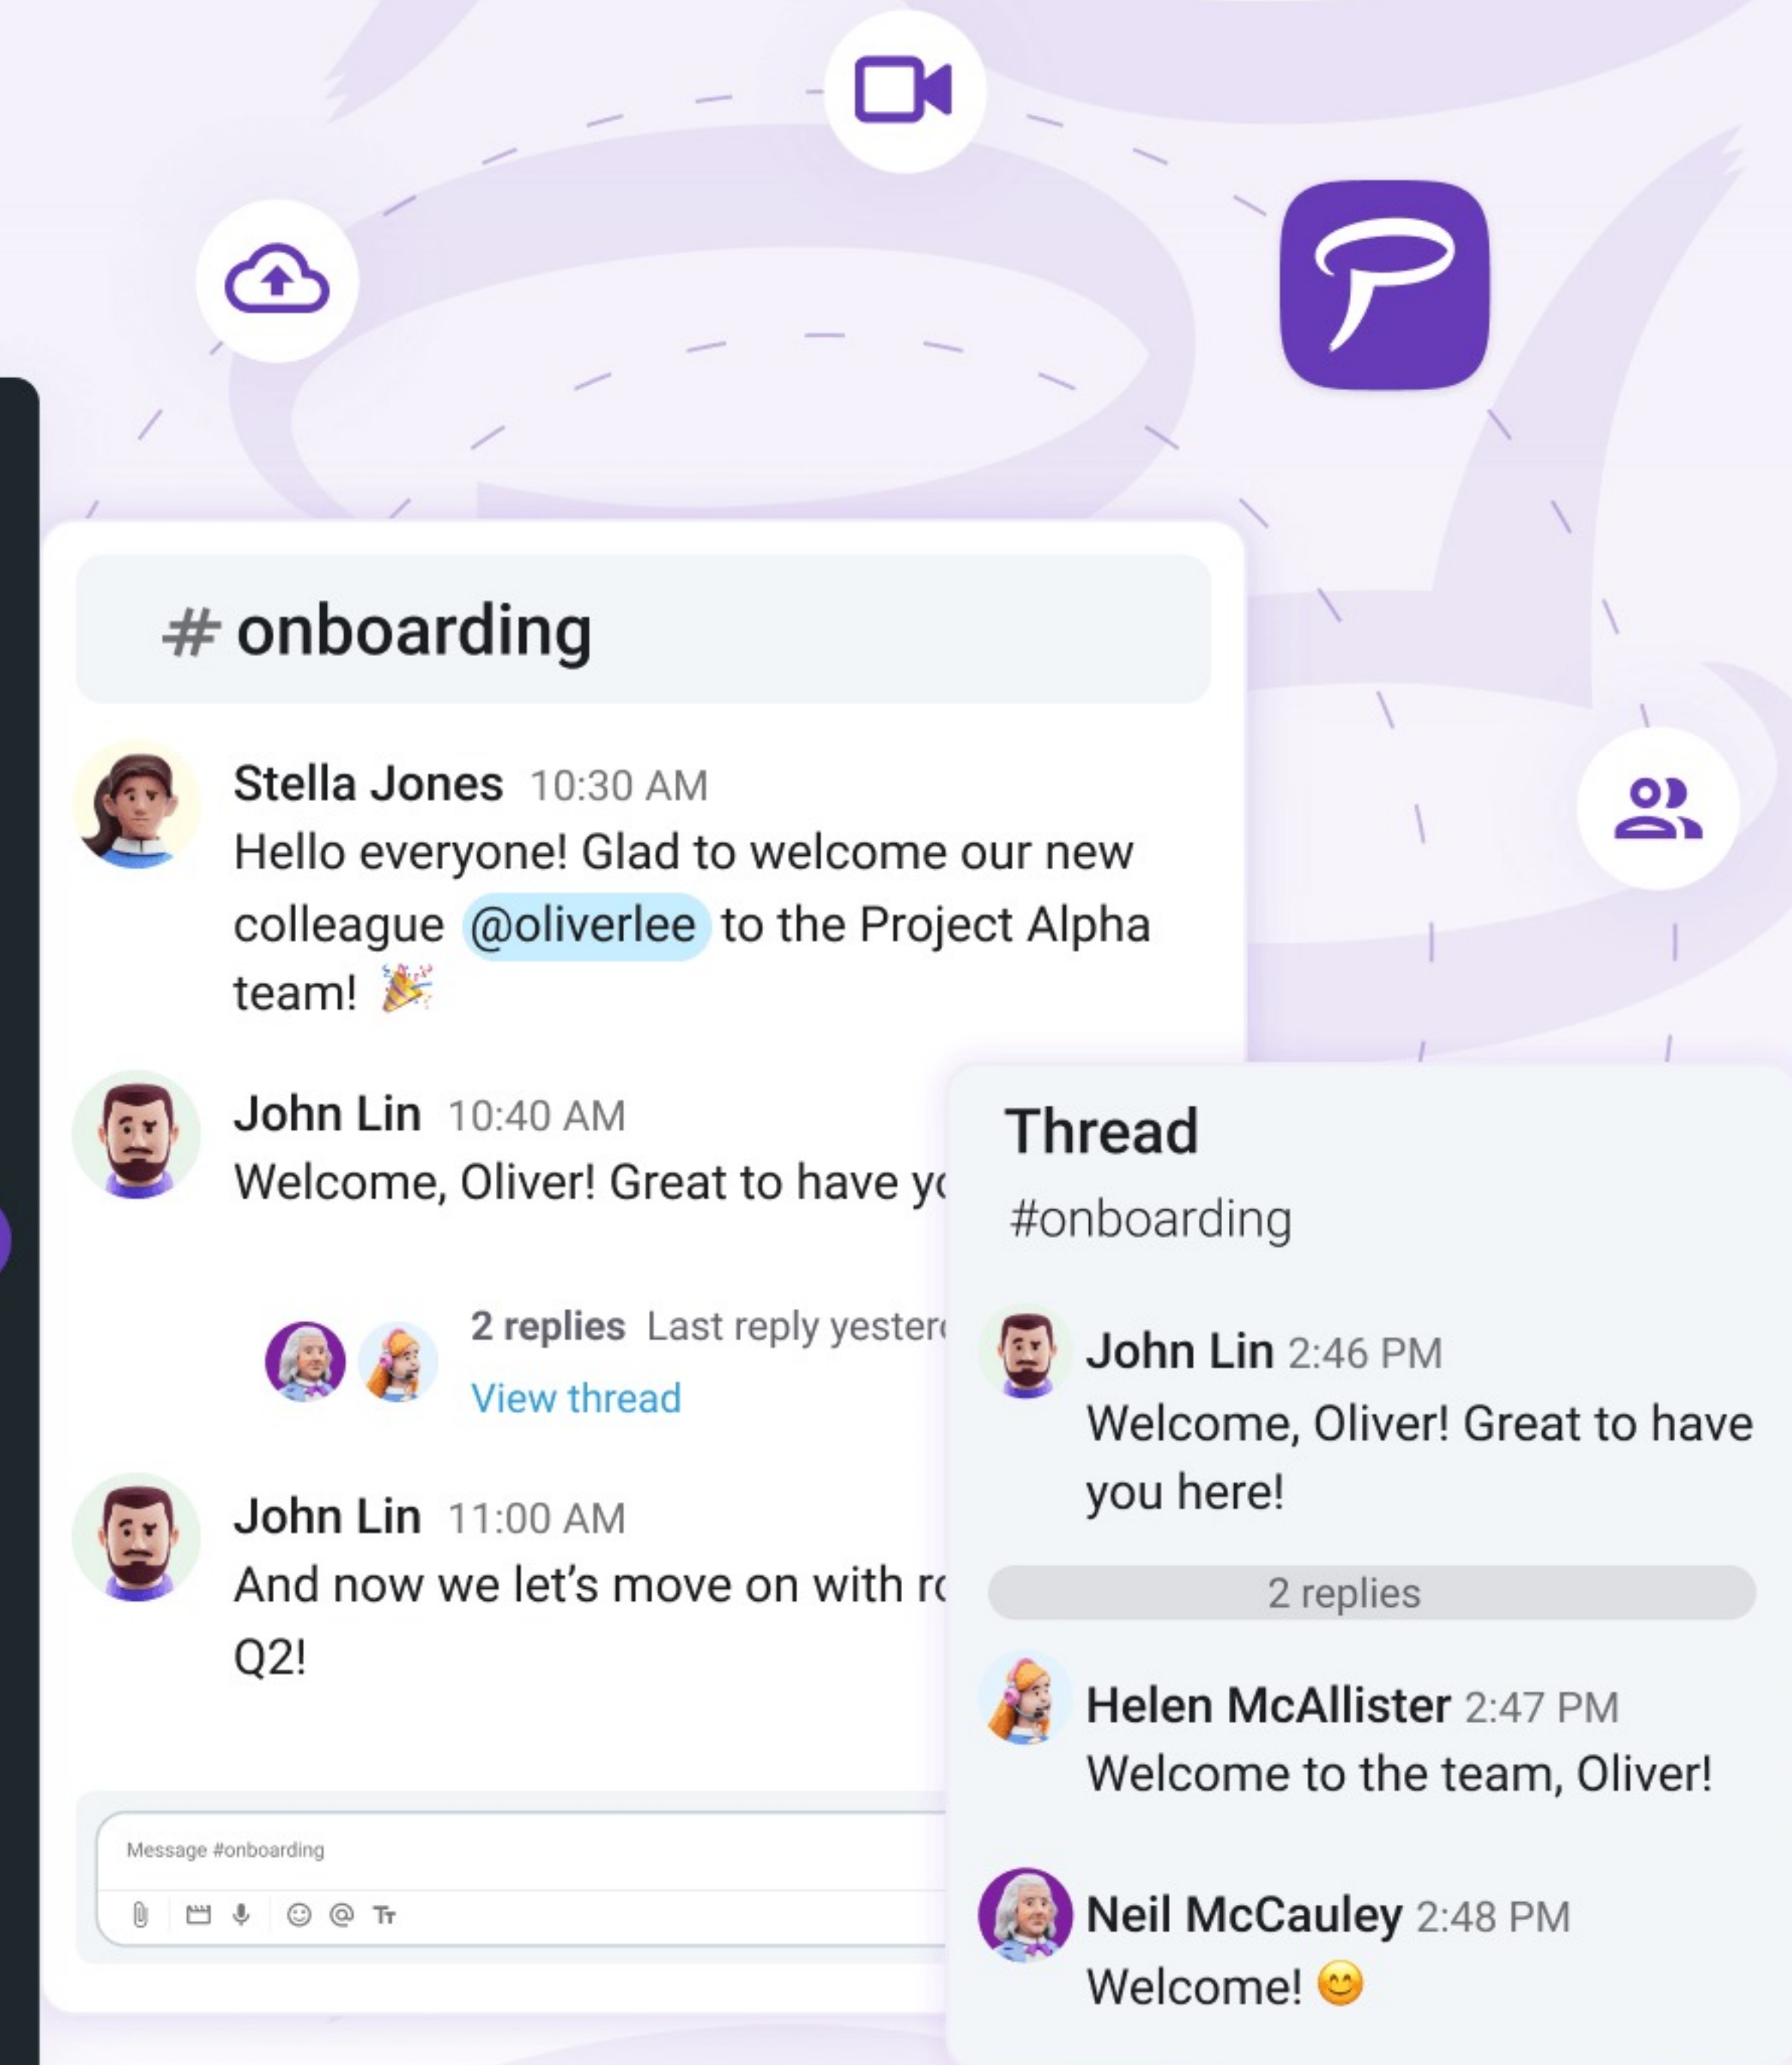

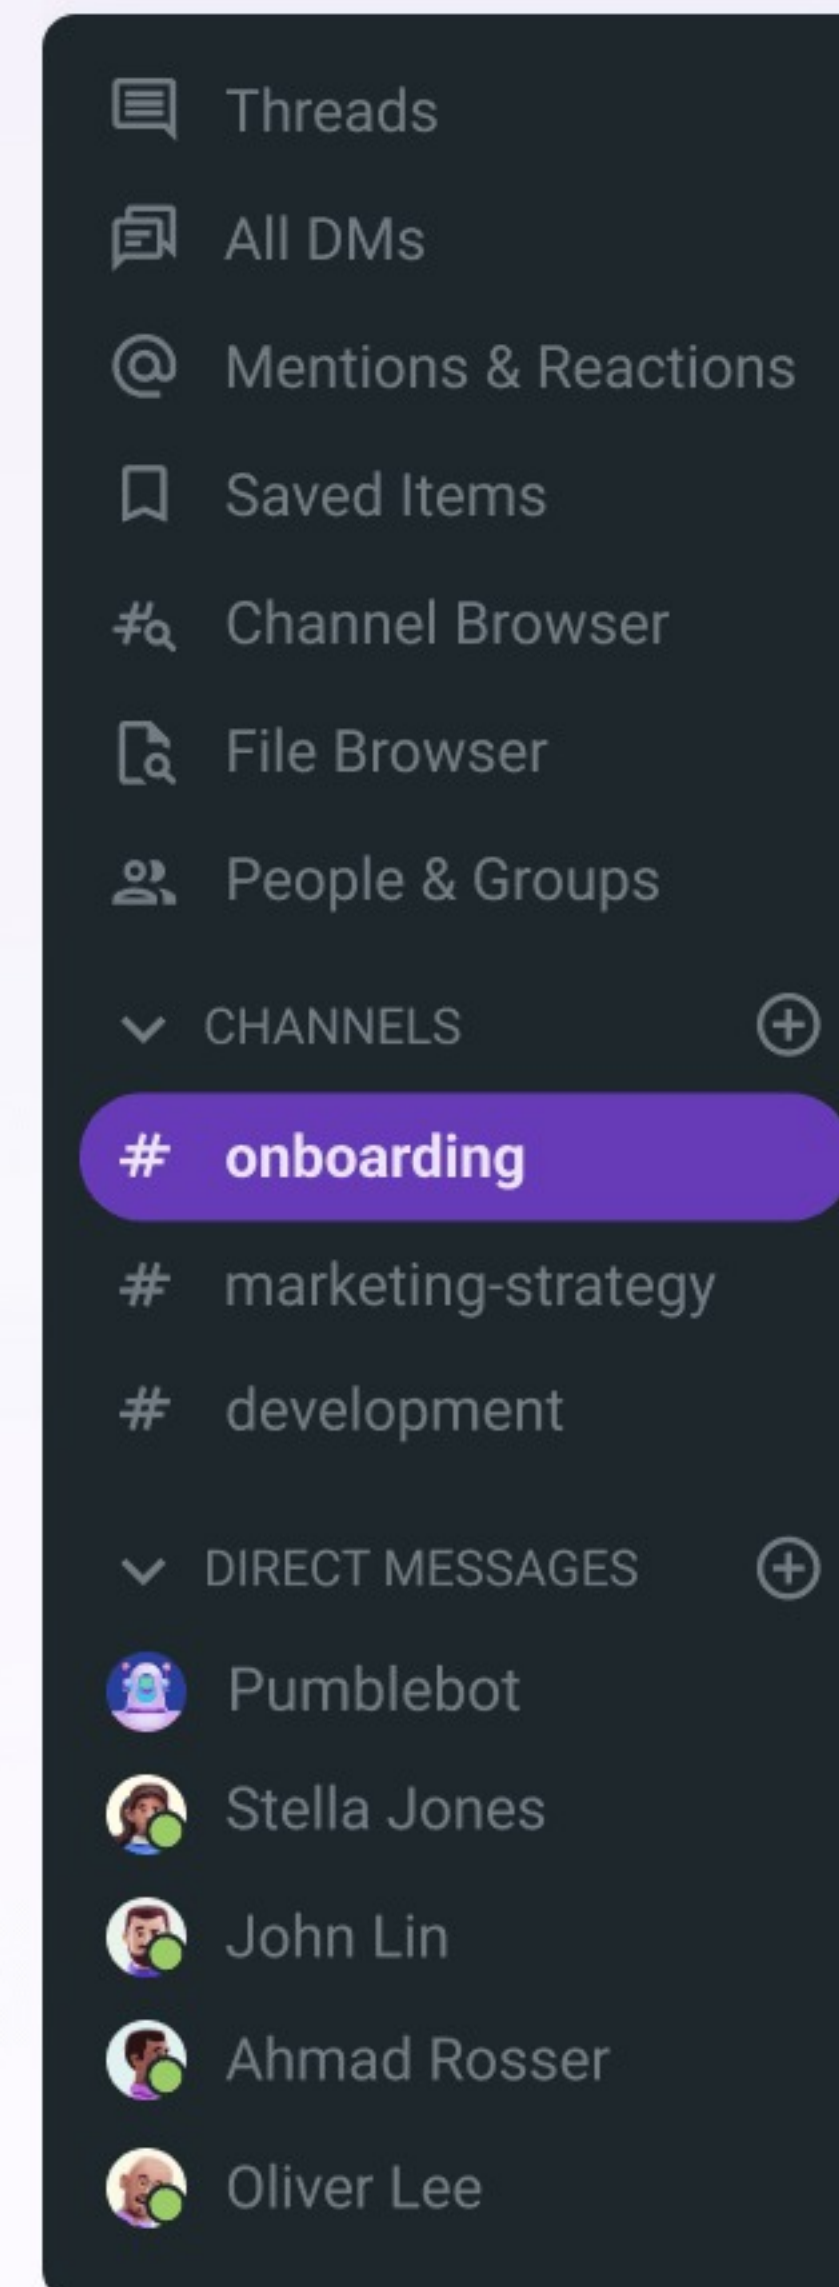

Set up a dedicated space for team communication, sharing files and move work forward with a common purpose and place.

Direct messages

Send a message to one team member or to a group of them at once, share important announcements or just send memes.

Threads

Never lose track of action items. Discuss topics with team members under one message.

Share and find files

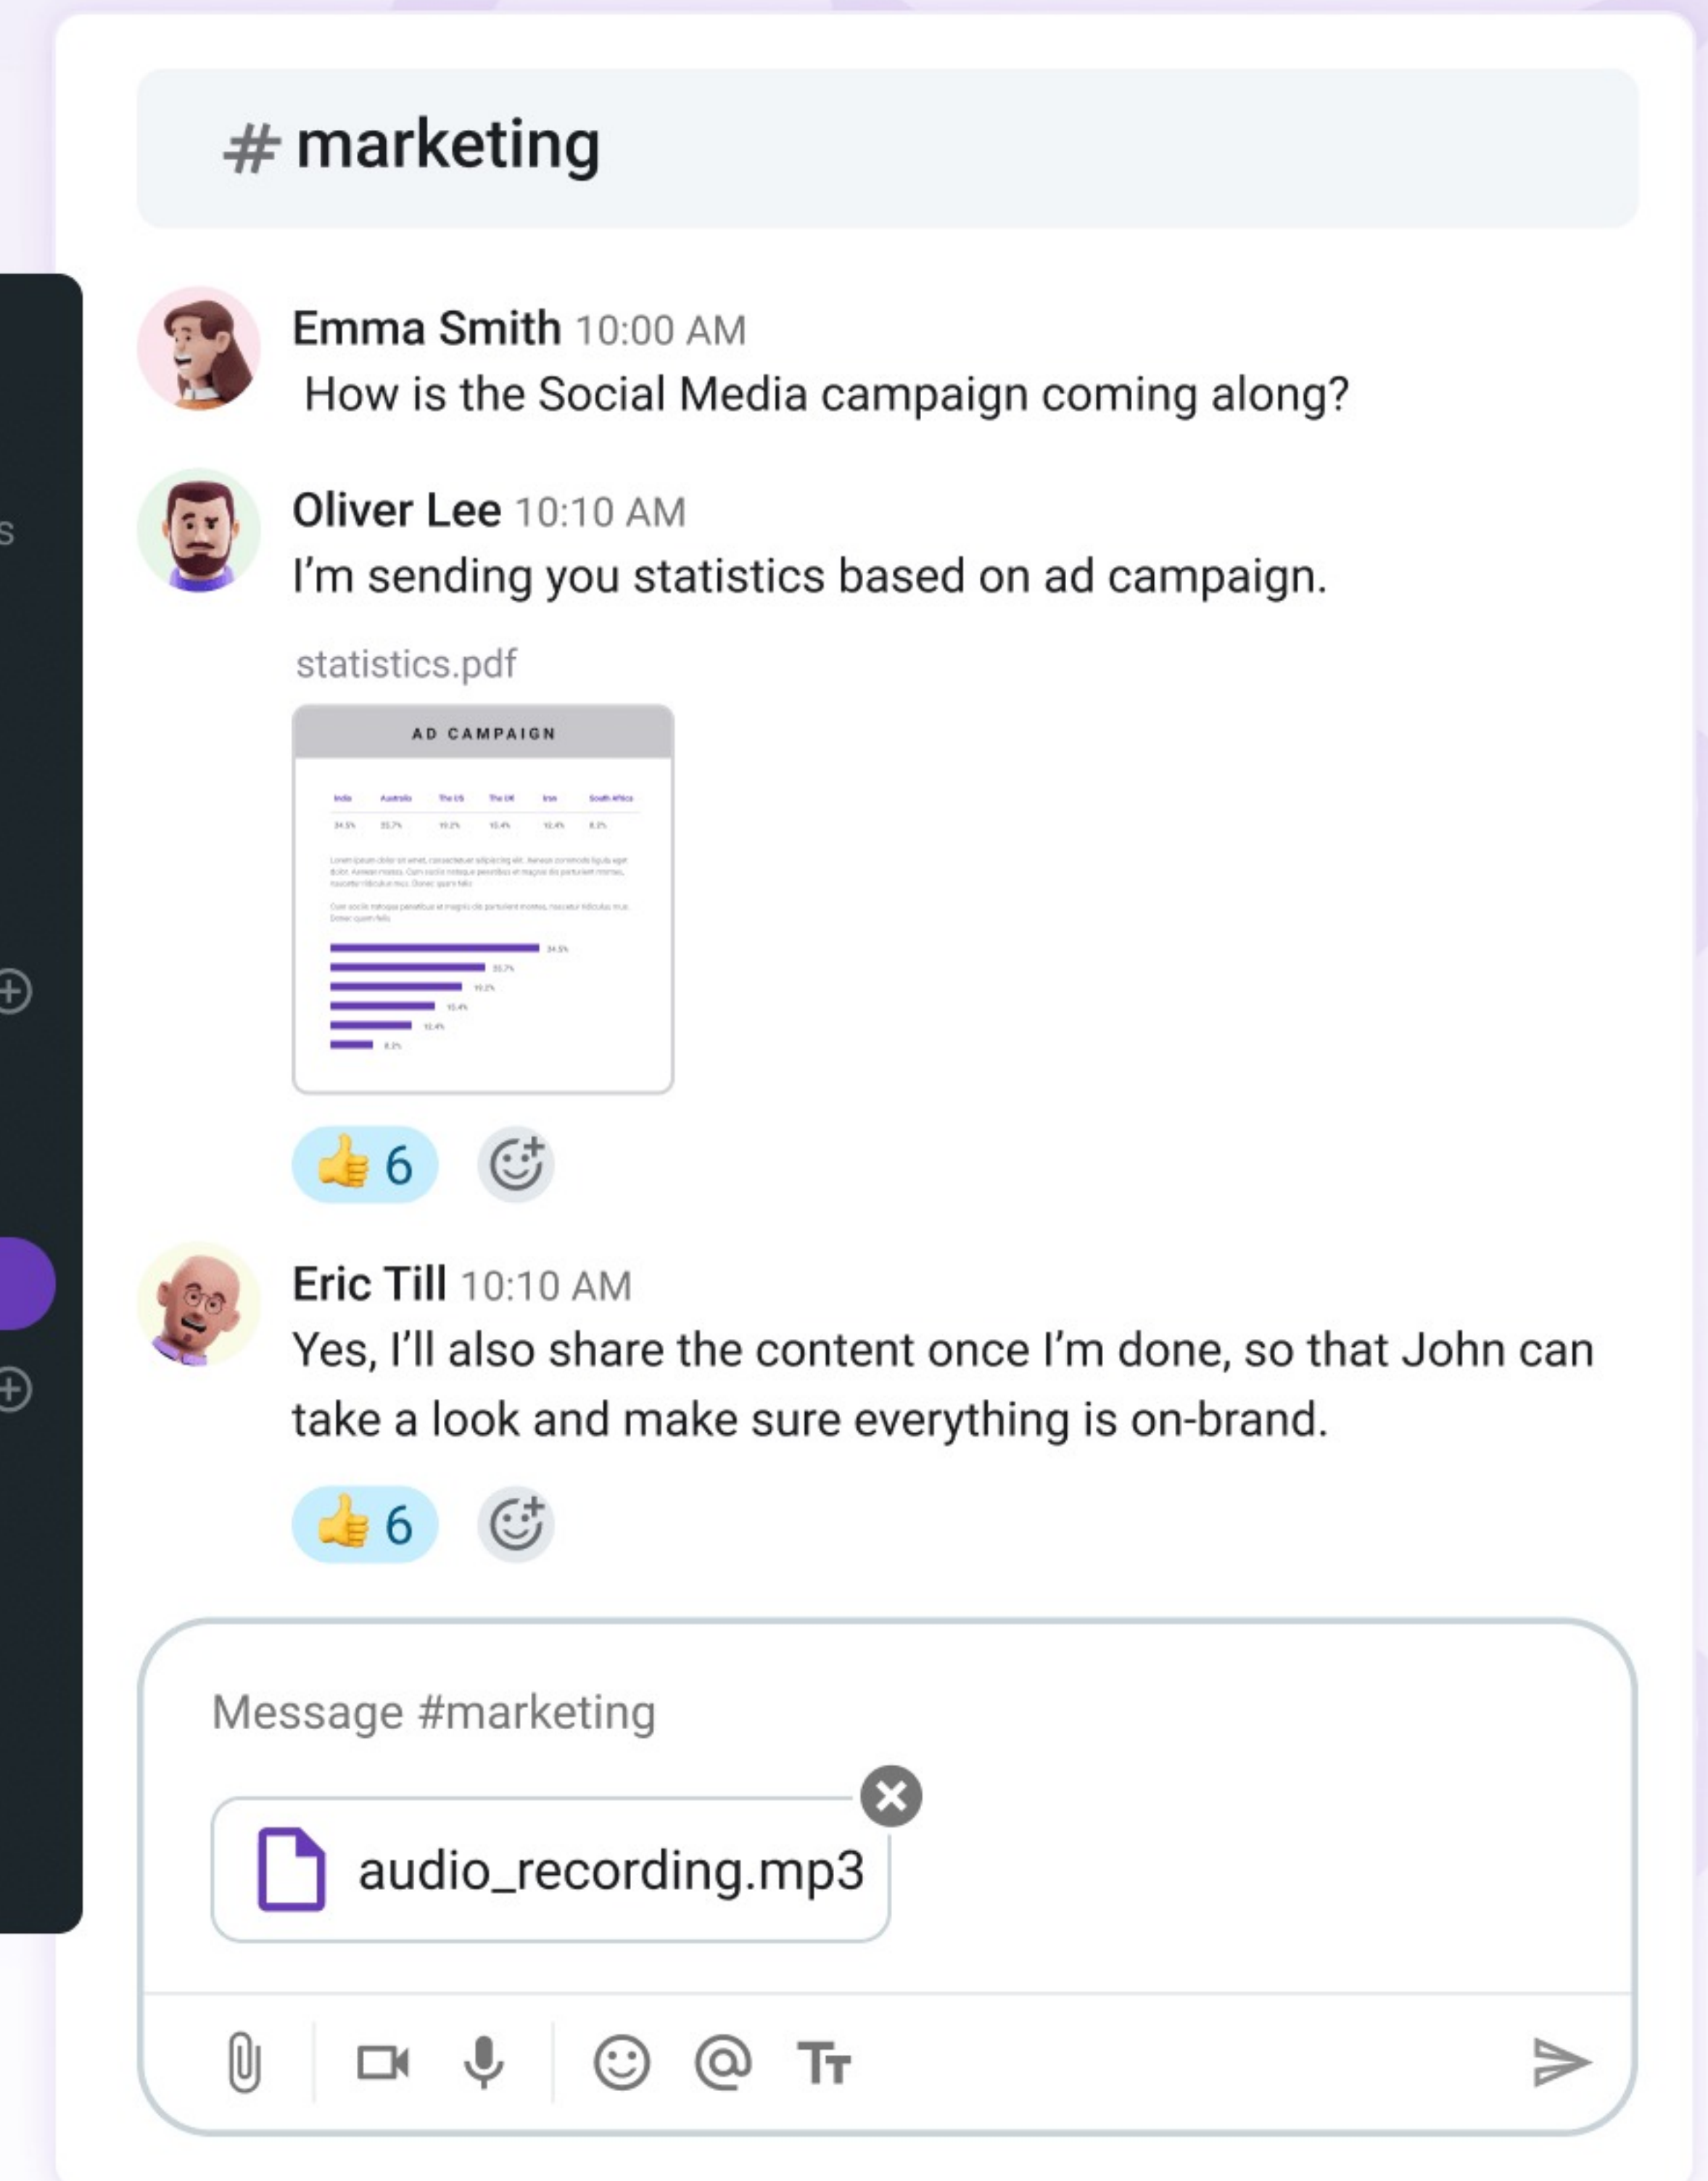

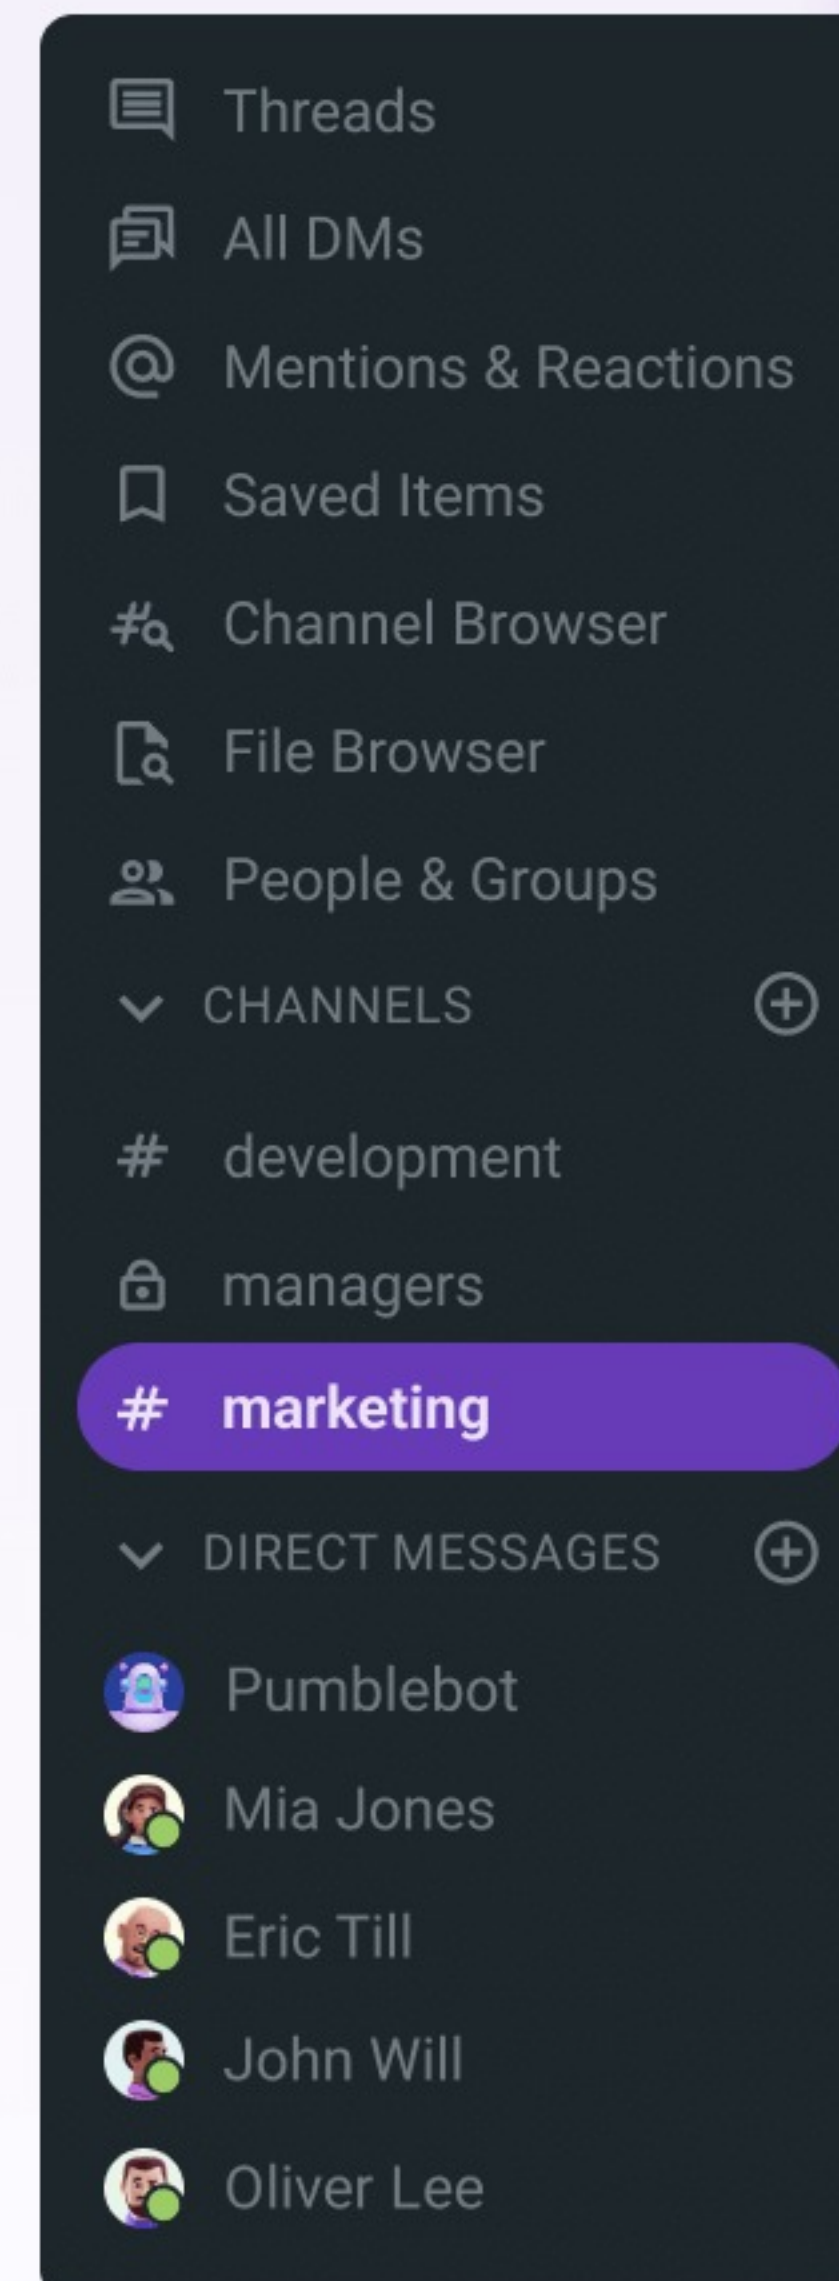

Share files, images, videos, and links with everyone who needs them and later you can search through all conversations to find it.

Voice and video messages

Record a voice or video message to share ideas and important updates with your team and let them play it multiple times.

Schedule messages

Compose and schedule a message to be sent in a Pumble channel you choose.

Video conference

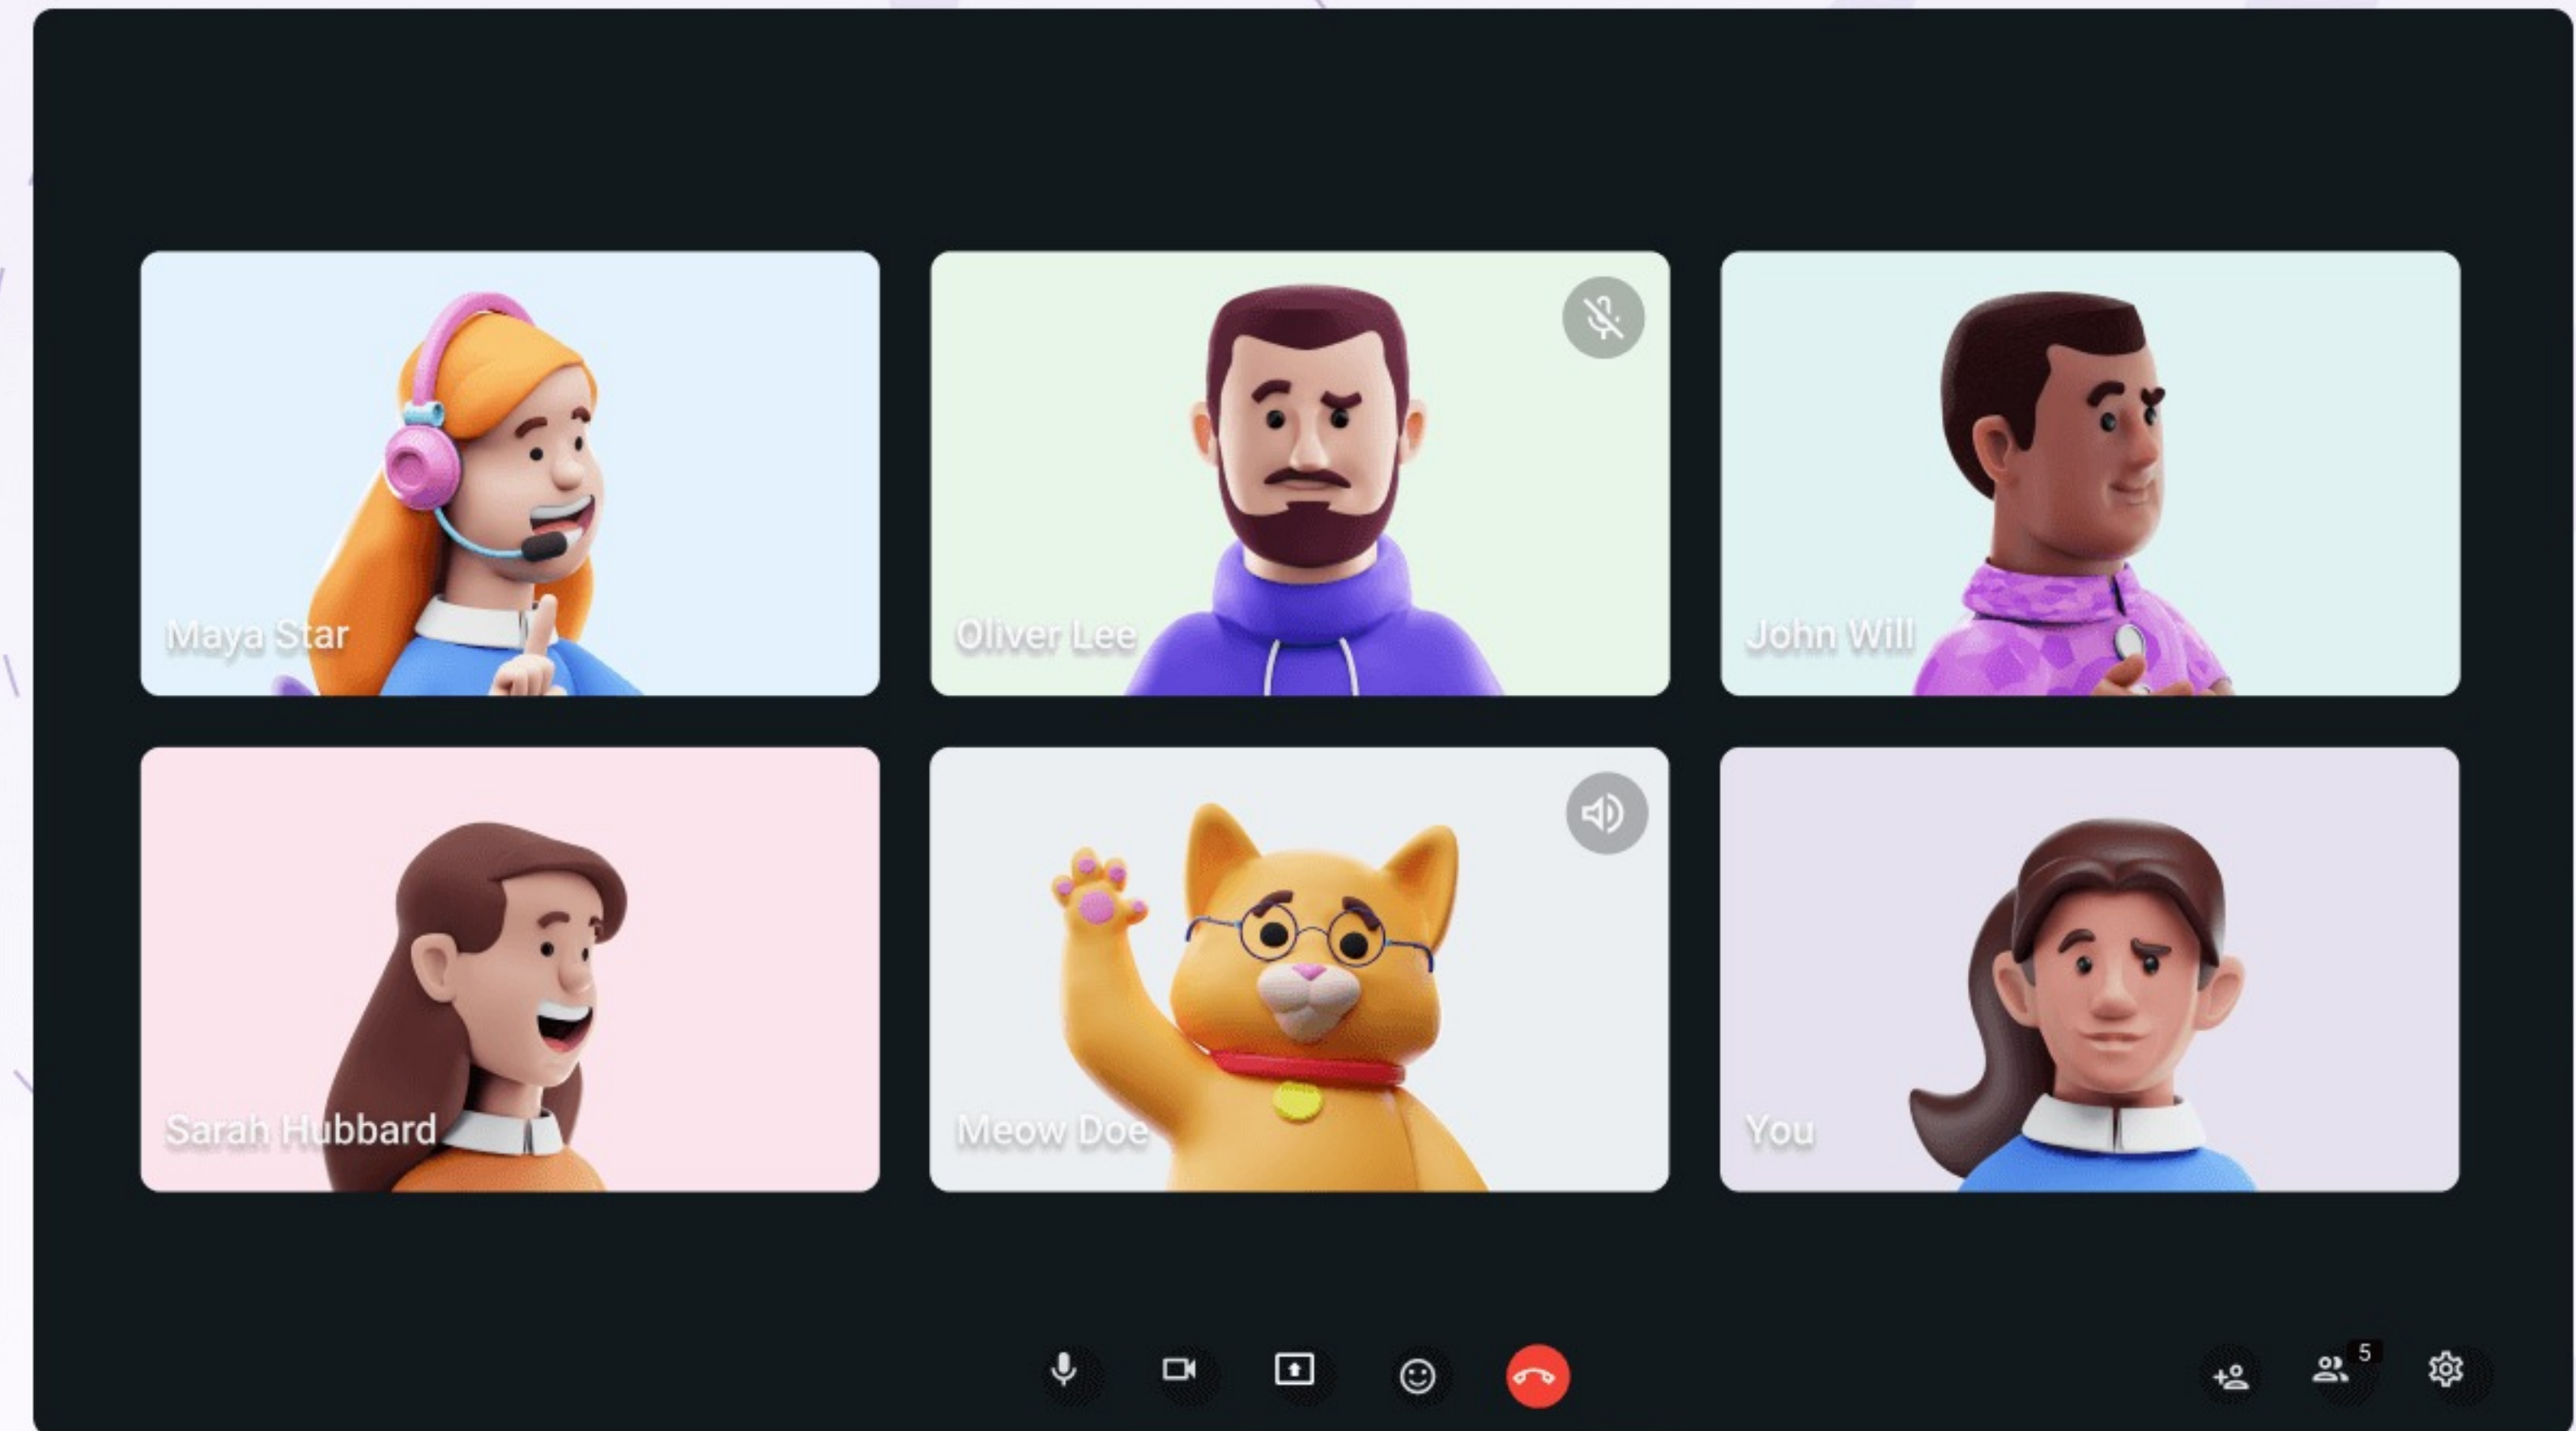

Connect with anyone in your workspace via video conferencing.

Voice calls

Start a voice meet in a DM with other teammates.

Share screen

Meetings are meant for sharing ideas, so make sure yours are seen.

Permissions

Manage what users can do, their default channels, or channel posting permissions on web and desktop.

Guest access

Invite contractors, freelancers, vendors or clients to Pumble and give them limited access.

Import from Slack

Import public channels, messages, and your team from Slack.

SETTINGS PERMISSIONS ATTACHMENTS

Messaging

People who can use @channel and @here in all channels, except #general:

Everyone (default)

**How Pumble helps teams and businesses
be successful**

Customers

Our partners are one click away in Pumble

“The biggest benefit for us is that we can add guests to our workspace and channels, and make our external communication with our clients more internal. They are here, one click away, they can see all the correspondence in the channel, and the risk of misunderstandings and problems occurring is almost none.”

Vladimir Milić
CEO at VM Digital

Customers

“We made a Google search and we found Pumble, so we decided to give it a try since the UI was really familiar to me and some of my teammates. At that time, Pumble provided enough features for us to get it started. And, I’m very happy to say that Pumble has been constantly putting in new features that made us stick to Pumble and it has been very helpful.”

Ali Iktider Sayam

Co-founder of Nerd Evolution

“I’m not paranoid about losing message history anymore. So, I know if I talked to my art director about something six months ago, I can just go find it. It’s made me a lot less stressed about forgetting or losing access to the decisions we’ve made, the plans we’ve made.”

Ryan Vandendyck

Founder of Eden Industries

Customers

Pumble helps us keep all the employees in one place and connected

“We used to communicate face to face in the office. Now, with Pumble and our growing need to hire more people, it’s easier to make announcements company-wide or department-wide.”

Maryam Nazir
Finance Director at TELOS

Friendly, 24/7 Customer Service

- ✔ Help available via phone, chat, and email with **average response time under 1h**
- ✔ We are here **24 hours a day, every day of the week, including holidays**
- ✔ Our customer support is rated with **95% satisfaction score (16k+ ratings)**
- ✔ Extensive library of up-to-date **documentation and training tutorials**
