**Pooja Nataraj**
Founder of
PNJXN

“At the moment, we are about 90% in-office and 10% remote because we also have a senior citizen as well as freelancers working with us.
We don’t insist on them coming to the office. They can work remotely, and they can log in via Pumble. That way, we can stay in touch and keep communicating with each other.”

**Kayla Klein**
CEO at Kreativ
Alchemy

“Pumble makes it easier and faster to communicate with team members and clients — plain and simple. We can organize conversations into channels and threads, so we never lose track of a task, whether it’s something we’ve assigned or need another person to do for us.”

# Our partners are one click away in Pumble

“The biggest benefit for us is that we can add guests to our workspace and channels, and make our external communication with our clients more internal. They are here, one click away, they can see all the correspondence in the channel, and the risk of misunderstandings and problems occurring is almost none.”

**Vladimir Milić**
CEO at VM Digital

**Ali Iktider Sayam**
Co-founder of
Nerd Evolution

“We made a Google search and we found Pumble, so we decided to give it a try since the UI was really familiar to me and some of my teammates. At that time, Pumble provided enough features for us to get it started. And, I’m very happy to say that Pumble has been constantly putting in new features that made us stick to Pumble and it has been very helpful.”

**Ryan Vandendyck**
Founder of Eden
Industries

“I’m not paranoid about losing message history anymore. So, I know if I talked to my art director about something six months ago, I can just go find it. It’s made me a lot less stressed about forgetting or losing access to the decisions we’ve made, the plans we’ve made.”
