

The most **flexible project
management** software

plaky.com

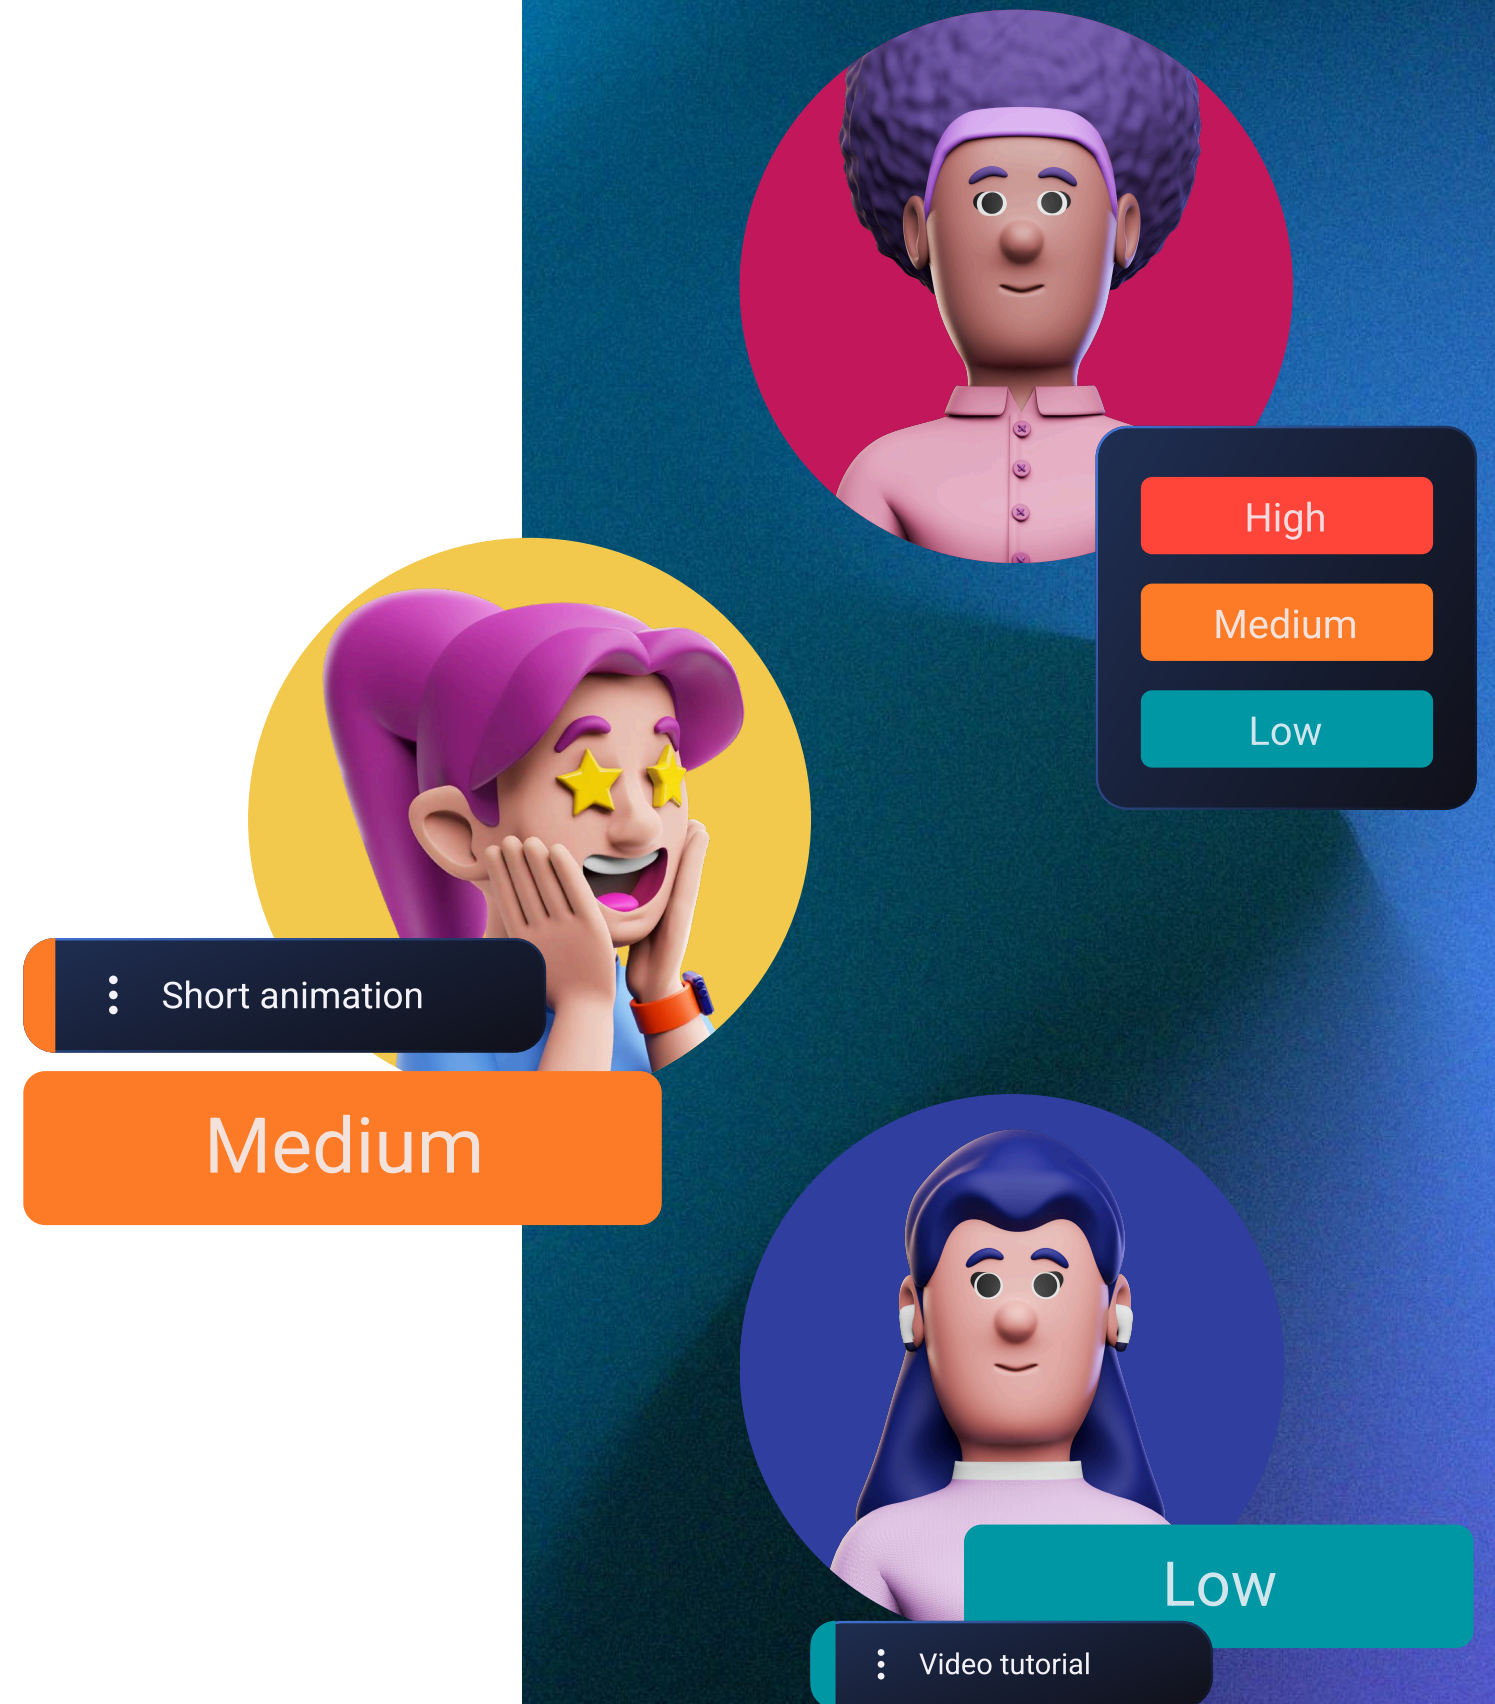

What is **Plaky**?

Plaky is a **cloud-based platform** & **highly customizable project management tool** that helps teams from all industries to stay on top of their tasks by planning & organizing work in one place.

Why use **Plaky**?

- **Streamline** your projects by implementing structured workflows.
- **Assign work** & know at any time who is working on what & by when.
- **Collaborate** straight in the task & forget about the endless email chains.
- **Track progress**, analyze data, and make informed decisions.

Benefits

01

VISUAL PLANNING

Map out tasks & projects with color-coded elements.

04

COLLABORATIVE COMMUNICATION

Foster teamwork and idea sharing by communicating straight in the task card.

02

CUSTOMIZABLE WORKFLOW

Tailor workflows to match your team's unique processes and preferences.

05

ACCURATE PROGRESS TRACKING

Monitor project progress by tracking statuses, setting filtered views and getting instant notifications.

03

CLEAR GOALS & EXPECTATIONS

Set and communicate objectives transparently by assigning tasks.

06

TEAM SCALABILITY

Adapt the platform to accommodate teams of any size as your organization grows.

Who uses **Plaky**?

Business & Enterprises

Large corporation and organizations spanning various industries such as technology, finance, healthcare, manufacturing, and more.

Small & Medium-sized companies

Smaller business and startups across different sectors including retail, hospitality, consulting and creative industries.

Freelancers & Independent professionals

Freelancers, consultants, solo entrepreneurs, and professionals working in fields such as design, writing, executive assistance, marketing, IT and more.

Employees use it to better organize their tasks, communicate & share files with their teammates.

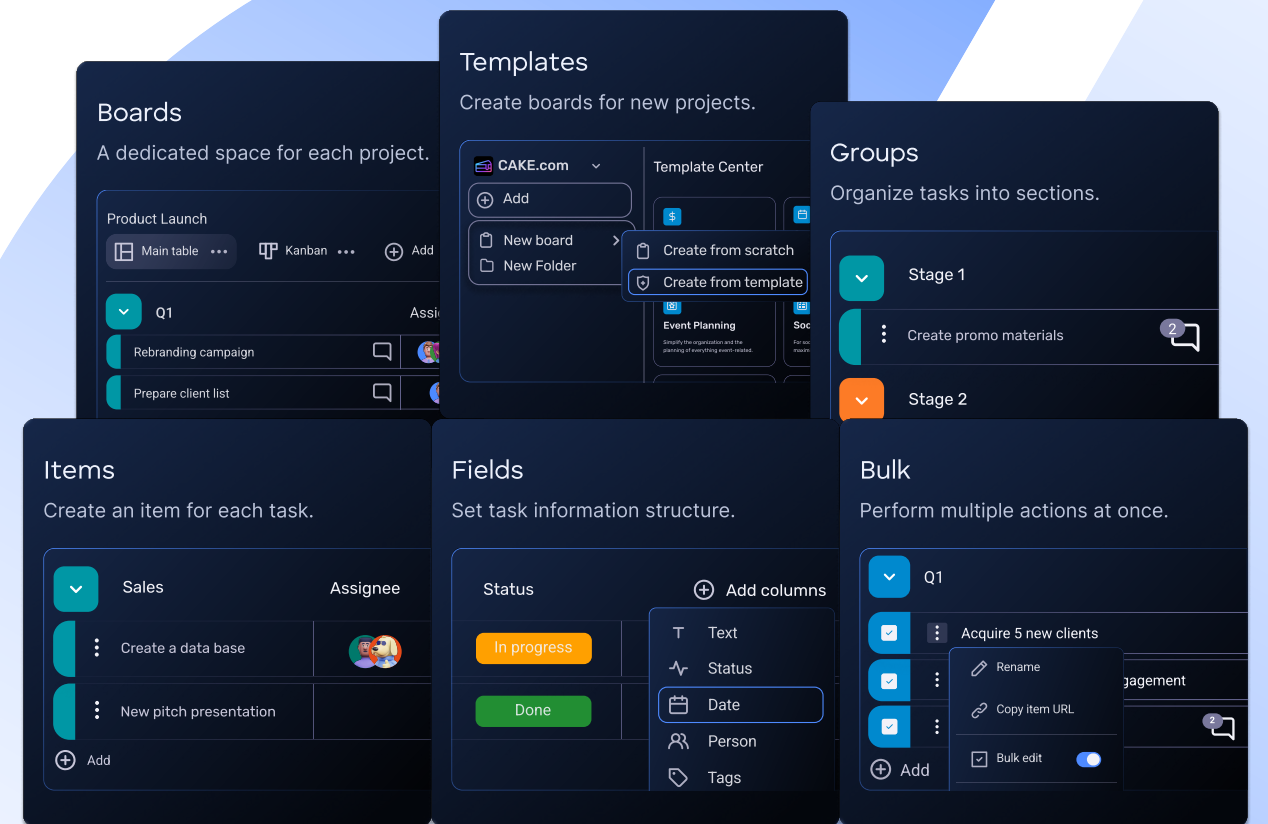

Managers use it to set objectives, align teams to their goals & track progress.

How Plaky works?

Main categories & features

Task management

 **Boards**
Have a dedicated space for each project

 **Templates**
Quickly create boards from existing ones

 **Groups**
Organize tasks into sections

 **Items**
Keep all tasks and to-dos as items

 **Fields**
Structure tasks with different attributes

 **Bulk**
Perform multiple actions at once

Team collaboration

 **Files**
Share task-related files & documents

 **Comments**
Communicate & give feedback in the task

 **Mention**
Get the immediate attention of a teammate

 **Notifications**
Get notified by email or bell when changes occur

 **Teams**
Group individual users collaborating toward joint objectives

 **Viewers**
Invite members to view content, without the option to edit or make changes

Progress tracking

Planning	Assignee	Due Date	Status
Write demo script	[Avatar]	May 1	To do
Create tutorial video	[Avatar]	May 2	In progress
Podcast episode 03	[Avatar]	May 3	Done

Our customers

In the heart of what we do

“Instead of having to hop on a call for half an hour, I go to Plaky, enter what I want, tag the person I need, ping them, they see it, and that's it. If I need to participate in the comments section, I put what I need. Plaky simply made things faster, it saved us the most time.”

Vladimir Milic

CEO of VM Digital

“We made a custom table and we managed to determine what and who needs to fill it up. So the department leader from each department knows and can predict when he will get the parts to them and can prepare all pre-processes to that moment that he will get it, so the production can be as fast as possible.”

Jesse Tut

Founder and CEO of Guru Services

**“We tried a pilot version of Plaky, then we upgraded it, introduced it to the company, and implemented it into the process.”
... all department leaders first look at the production plan. Everything is marked there: the priority, the handling, special comments, so there is no need to ask me silly questions.”**
