

# cake.com | suite

Everything you need to efficiently run your business

# What is cake.com | suite ?

CAKE.com Suite is a collection of easy-to-use tools that help thousands of companies around the world organize and run their businesses.

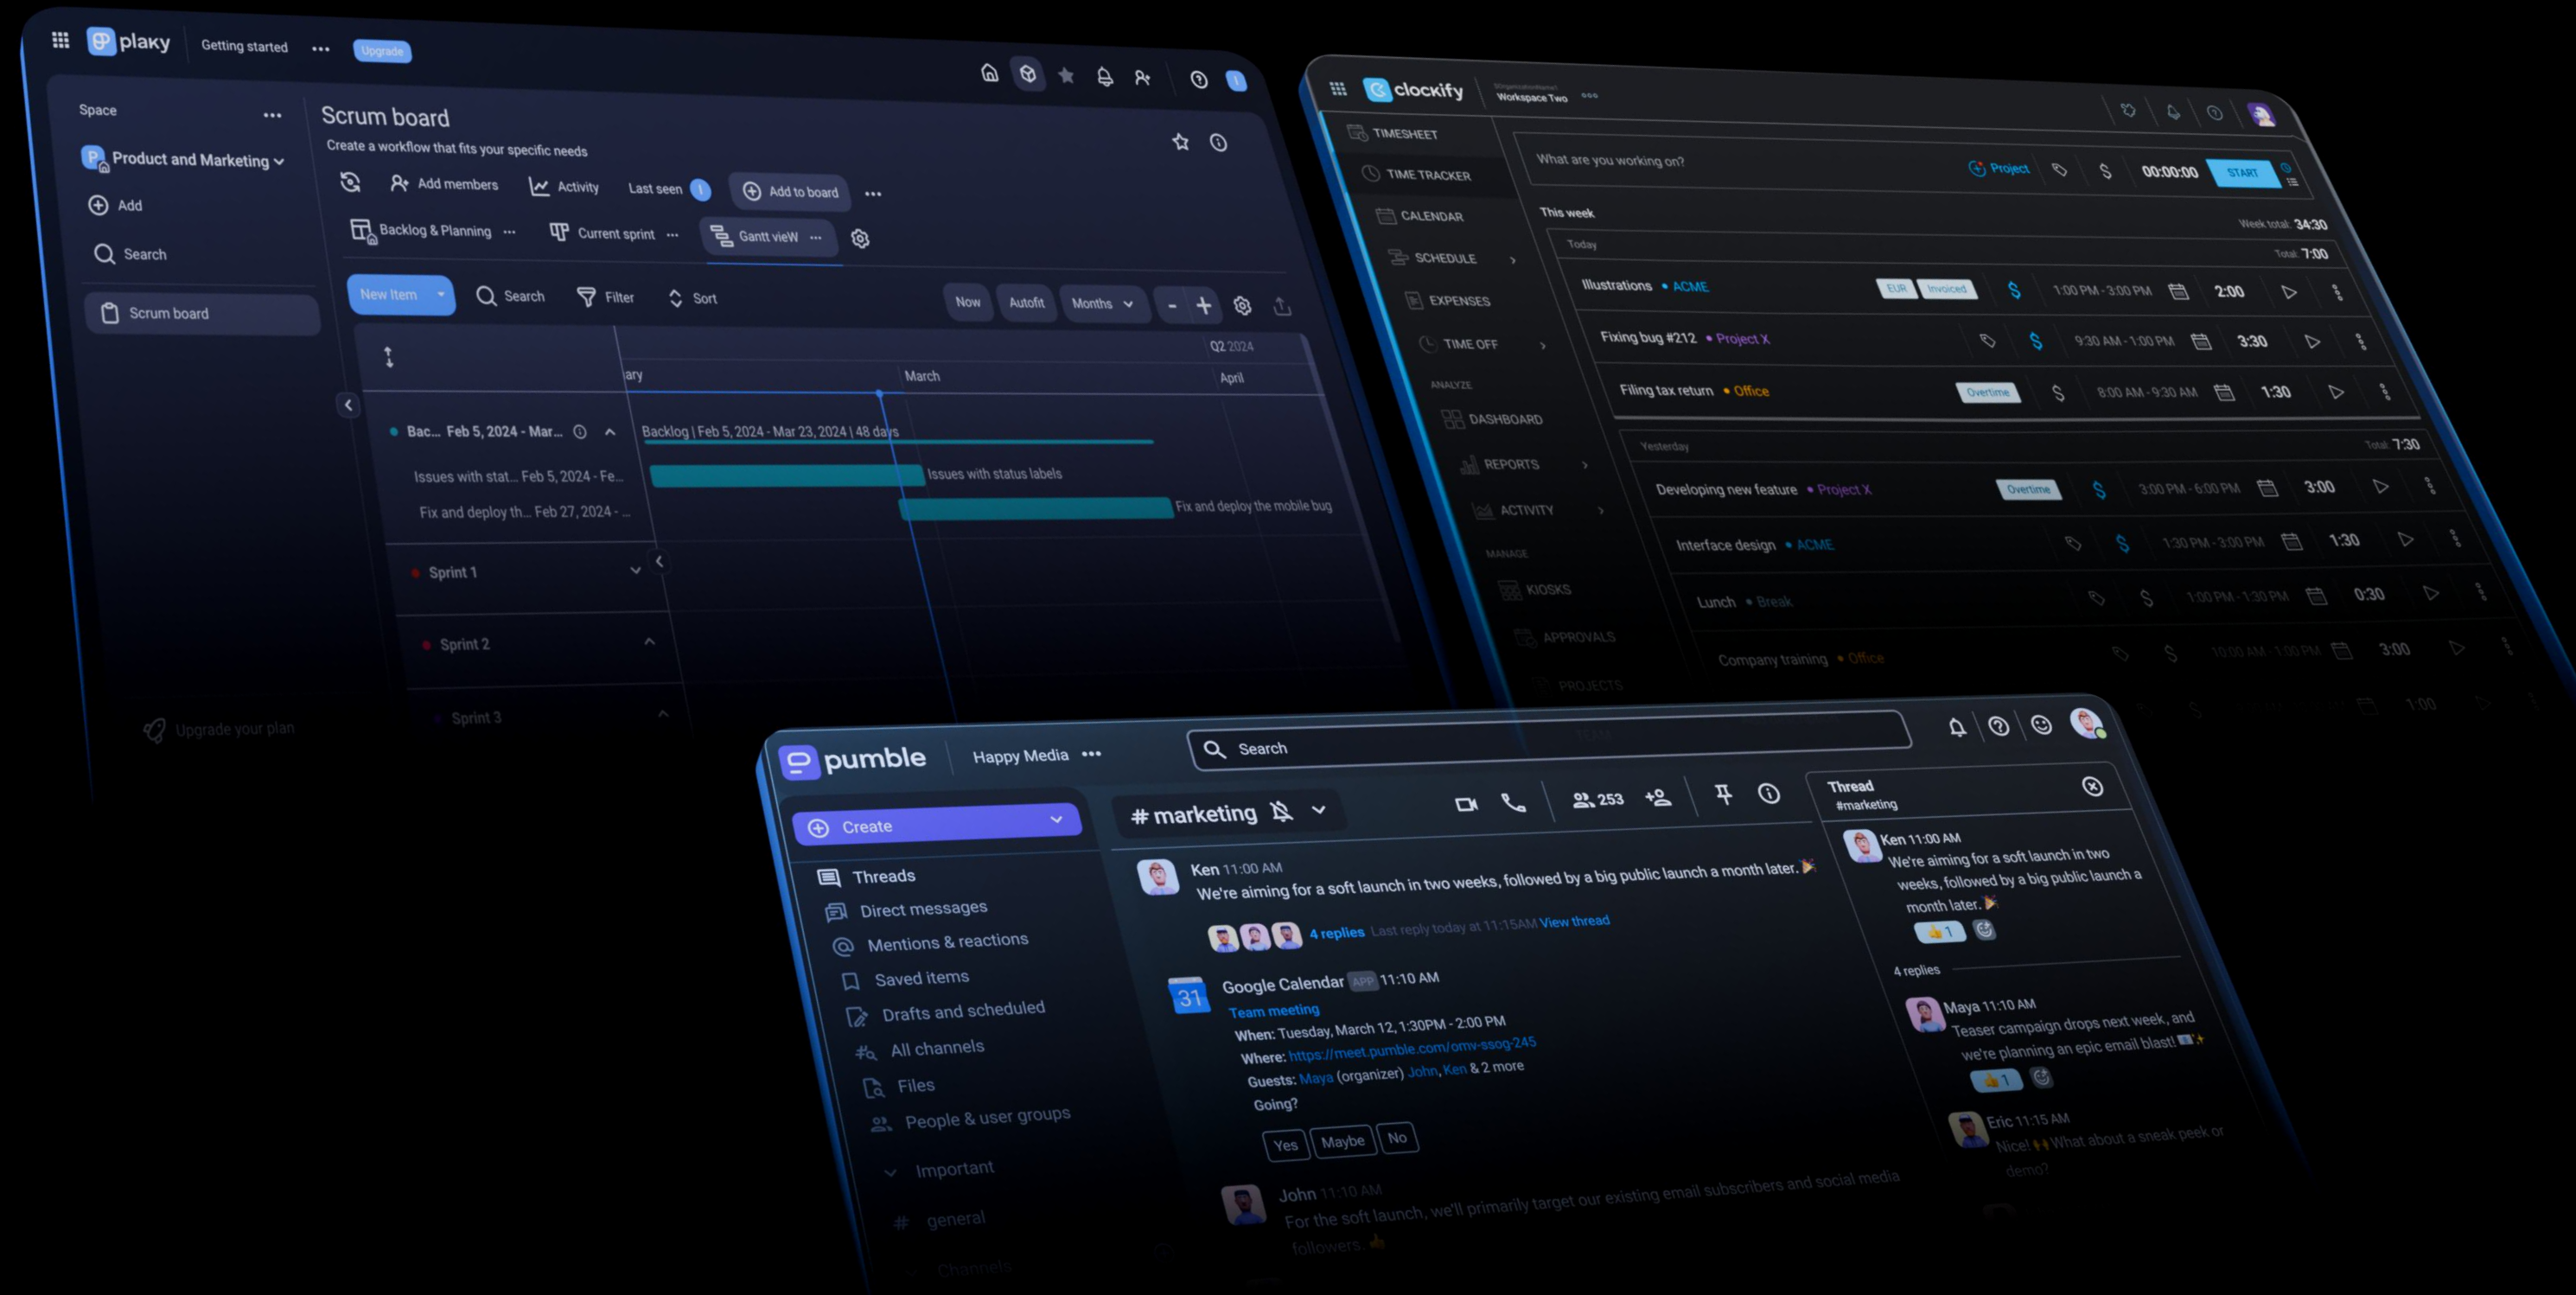

for organizing tasks and  
managing projects

for communicating with  
teammates

for planning and tracking  
time and costs

# Plan and manage work

Plaky is a task and project management platform that helps you plan activities, organize what needs to be done, and track updates across teams.

The platform is very visual so you can see at a glance where your team stands with their work. Plus, it's super flexible and can suit any workflow.

- Create items for to-dos and share updates
- Organize all your projects and activities using boards
- Control which fields you need on each board
- Filter boards and create custom views to track item status
- Stay up-to-date via notifications and activity logs

The screenshot displays the Plaky interface. On the left is a sidebar for 'Futura Co.' with a dropdown menu set to 'Internal'. Below this are sections for 'Add', 'Search', and a list of categories: Development, Website, App, Sales, and Marketing. The main area shows a 'Timeline' view for 'This week' with columns for Assignee, Status, Billable hours, and Reviewer. It lists four tasks: 'Blog post', 'Product presentation', 'Illustrations', and 'Tutorial video'. The first two are 'Done', while the last two are 'In progress'. A comment modal is open over the 'Illustrations' task, showing a comment from '@valentinamorose' and an 'Add Comment' button.

	Timeline	Assignee	Status	Billable hours	Reviewer
Blog post	Sep 11, 2023 - Sep 15, 2023	[Avatar]	Done	5	[Avatar]
Product presentation	Sep 11, 2023 - Sep 15, 2023	[Avatar]	Done	6	[Avatar]
Illustrations	[Timeline bar]	[Avatar]	In progress	6	[Avatar]
Tutorial video	[Timeline bar]	[Avatar]	In progress	12	[Avatar]

# Communicate with team

Pumble is a team communication platform that lets you keep your whole company in the loop using channels, messages, and calls.

Discuss work, collaborate on projects, and share files in an organized way, all which you can reference thanks to unlimited history.

- Centralize team communication in one platform
- Discuss work on public and private channels, or via DMs
- Organize conference video calls with dozens of people
- Invite clients to channels, or share a video meeting link
- Improve productivity with notifications and searchable history

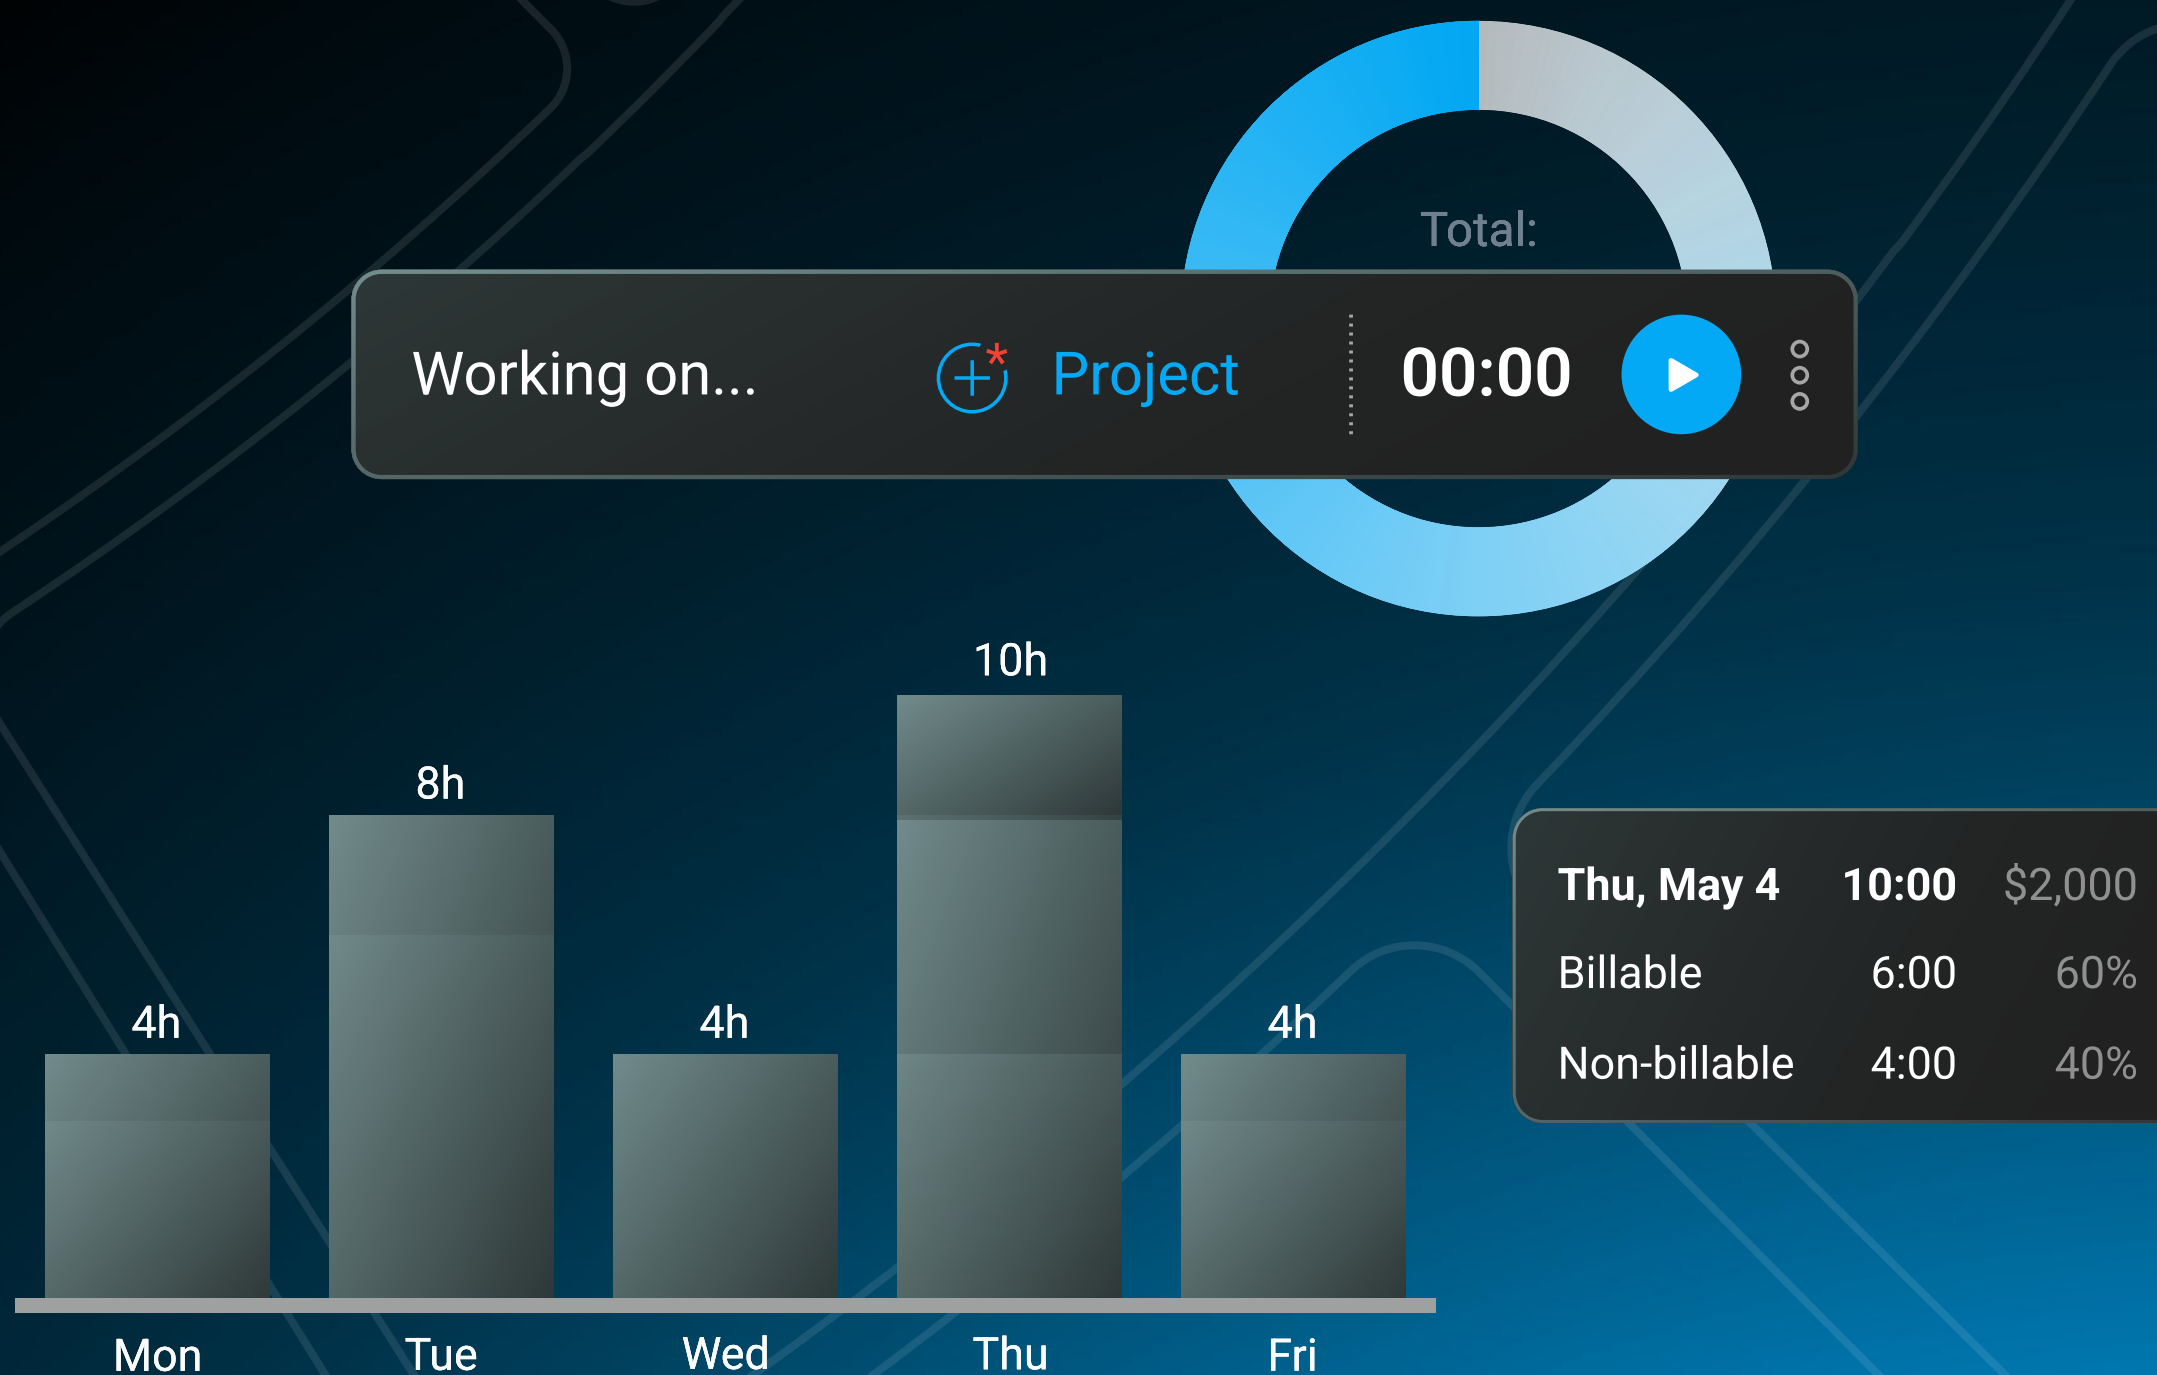

# Track time and costs

Clockify is a time and resource tracking platform that allows you to see where your company spends time and money so you can improve productivity.

Track time and expenses, schedule work, and have reports for your management, HR, accounting, and payroll available in a few clicks.

- Track time using timer, timesheet, auto tracker, or kiosk
- Add hourly rates and expenses to analyze profit
- Run reports to see which activities took the most time
- Approve your employees' timesheets and time off requests
- Plan your employees' schedule and predict project costs
